ORACLE VERIFIED CERTIFICATION

Oracle AI Database Certified Foundations Associate

Issued by **Oracle**

Awarded to

Khushvaqtsho Hukumatshoev

Issued on

21 October 2026

Valid until

October 21, 2028

Skills

This certification validates foundational knowledge of Oracle AI Database 26ai and Oracle Autonomous AI Database 26ai. It measures understanding of converged database concepts, JSON, graph, AI Vector Search, Select AI, Database Actions, Data Studio, Oracle APEX, and Agent Factory. It is intended for learners and early-career practitioners who want to demonstrate broad product knowledge and introductory task-level understanding.

- Identifying Oracle AI Database 26ai Strategy and Autonomous AI Database Basics
- Working with JSON and Graph in Oracle AI Database
- Working with AI and Vector Foundations
- Implementing Select AI and AI Vector Search in Autonomous AI Database
- Using Oracle Database Actions and Data Studio Tools
- Building Low-Code Applications and Agentic AI
